### New Rejections

#### ***Claim Rejections - 35 USC § 103***

10. Claims 33, 34, 35, 36, 38, 49, 50, 52 and 90 are rejected under 35 U.S.C. 103(a) as being unpatentable over Allan et al. (US Patent 5,747,309) in view of Dean-Nystrom (*Infection and Immunity*, vol.66, no. 9, pp. 4560-4563, 1998).

The claims are drawn to a method of reducing colonization /shedding of enterohemoragic E. coli (EHEC) in a non-human mammal comprising administering a composition comprising an E.coli cell culture supernatant.

Allan et al. teach a method of preventing E. coli infection (i.e. reducing colonization/shedding of E.coli) in a non-human mammal comprising administering a composition comprising an E.coli cell culture supernatant (see abstract, claims, specially claims 20 and 48, columns 3, 6, 8, 9, 10). Allen et al. teach domestic animals such as bovine and ovine (see column 6, lines 38-46). Allen et al. teach culture supernatant (see column 10, lines 40-45), multiple strains of E. coli (see column 12). Allen et al. do not teach E.coli O157:H7. However, Dean-Nystrom et al. teach E.coli O157:H7 and intimin based vaccines for reduction of EHEC in cattle (see abstract)

It would have been *prima facie* obvious to a person of ordinary skill in the art at

the time the invention was made to combine the methods of Allen et al. and Dean-Nystrom et al. to obtain the claimed invention. One of ordinary skill in the art would have been motivated to use the specific strains of E.coli taught by Dean-Nystrom et al, with the expectation of obtaining a composition containing EHEC to reduce colonization of EHEC in cattle.

***Conclusion***

11. No claims are allowed.

Claims 33, 34, 35, 36, 38, 49, 50, 52 and 90 are rejected.

Claims 37, 39-48, 51 and 53-89 are objected to as being depended from rejected claims 33 and 34.

12. Applicants' amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
